

Arun Patel - Mechanical Engineer with ML Expertise

Personal Details

Name: Arun Patel

Email: arun.patel@example.com

Phone: +91 9876543210

LinkedIn: linkedin.com/in/arun-patel-ml

GitHub: github.com/arunpatel-ml

Skills

- Machine Learning: TensorFlow, PyTorch, Scikit-learn
- Programming: Python, MATLAB, C++
- CAD Tools: AutoCAD, SolidWorks
- Data Analysis: Pandas, NumPy, Data Visualization
- Leadership & Communication: Public Speaking, Team Building
- Mechanical Engineering: Thermodynamics, Fluid Mechanics, Material Science

Projects

1. **Predictive Maintenance System**:
 - Developed a machine learning model to predict equipment failures in manufacturing systems.
 - Reduced downtime by 20% using predictive analytics.
2. **Autonomous Robot for Material Handling**:
 - Designed and implemented an ML-driven robot for warehouse operations.
 - Enhanced efficiency by 25% with optimized pathfinding algorithms.
3. **Energy Efficiency Analysis for HVAC Systems**:
 - Used ML to analyze and optimize energy consumption in HVAC systems.
 - Achieved 15% energy savings in a simulated environment.

Arun Patel - Mechanical Engineer with ML Expertise

4. ****AI-Driven Quality Control****:

- Implemented computer vision techniques for defect detection in assembly lines.
- Increased defect detection accuracy by 30% compared to manual inspection.

5. ****Portfolio Website****:

- Developed a personal website showcasing engineering projects and ML case studies.
- Focused on interactive design and professional branding.

Education

- Bachelor of Technology in Mechanical Engineering, XYZ Engineering College, 2021 - Present
- CGPA: 9.4/10

Certifications

- Machine Learning, Stanford University (Coursera)
- Deep Learning Specialization, DeepLearning.ai (Coursera)
- AutoCAD Advanced Certification, Autodesk
- Data Science for Engineers, NPTEL

Extracurricular Activities

- President, Mechanical Engineering Society, XYZ Engineering College.
- Organized tech fest with 1,000+ participants.
- Public Speaking Champion, Inter-College Debate Competition.
- Active participant in hackathons and coding competitions.
